SHARED VALUES

What we have embraced as the common values of our stakeholders.

INTEGRITY

Fundamental to our operations, ensuring the quality our customers expect.

OWNERSHIP

Tackling challenges with passion and determination, stepping out of comfort zones to create a better future.

HEALTHY

To enhance customers' and employees' health and wellbeing.

INNOVATIVE

To evolve with innovation and purpose, continuous learning is essential.

WA (和)

WA is the Japanese word signifying harmony and collaboration through mutual respect.

OUR FIVE BRANDS

We bring smiles to people's lives through our five unique brands, each with its own distinctive features.

Contribute to the health and happiness of families through the brand experience

House Foods is a brand that has been contributing new values and health to American food culture through its long history and consistent innovation. It all started when Yamauchi, a Japanese-American who owned a tofu manufacturing business, bought Hinode Tofu in Los Angeles, CA. At first, he built up trust through his steady effort of going door to door selling to Japanese people. In 1983, both House Foods and Hinoichi Tofu had strong desires to "deliver a healthy diet through tofu" and started a joint venture together. In 1997, House Foods established a factory in Los Angeles, focusing on improving and promoting tofu consumption. Today, House Foods remains dedicated to quality and innovation, offering a wide range of tofu products for health-conscious consumers. The company's business continues to expand in the American market.

Build an authentic, health-conscious, and innovative food platform on a national scale

Franklin Farms began in 1981 on an actual mushroom farm in Franklin, Connecticut. Since introducing our vegetable-based burgers, Franklin Farms has been bringing exciting yet good-for-your meatless meals from the field to the dining table. Now, we've crafted a range of health-conscious plant-based products that cover throughout the day, meal types, and taste profiles. From quick bites to sit-down dinners, Franklin Farms is committed to innovating flavor-forward, high-quality, plant-based products that makes cooking with and eating plant-based proteins easy and delicious.

To be Asian American's good choice for authentic tofu, soymilk, and value-added products in the ethnic market.

Founded in 1989 by Mr. Yat-Sun Wen in Philadelphia, PA. Nature's Soy proudly offers a variety of delicious and nutritious plant-based products including tofu, soymilk, seitan and rice noodles crafted from the highest quality ingredients. Committed to serving Asian American families, Nature's Soy is a trusted brand providing authentic products that enhance daily meals. Nature's Soy is working on providing products to be available in Asian supermarkets across the U.S.

To be Canadians' first choice for authentic value-added soy and plant-based products.

Originally founded in 1982 by Percy Chan and his family as Superior Tofu. We have grown from a small storefront in Vancouver to one of Canada's leading tofu manufacturers. Our products are now distributed in Canada nationwide, ensuring access to authentic tofu with high nutrition and soymilk as options. Committed to providing excellence in food safety and quality, we aim to meet the growing demand for soy products that nourish our diverse community.

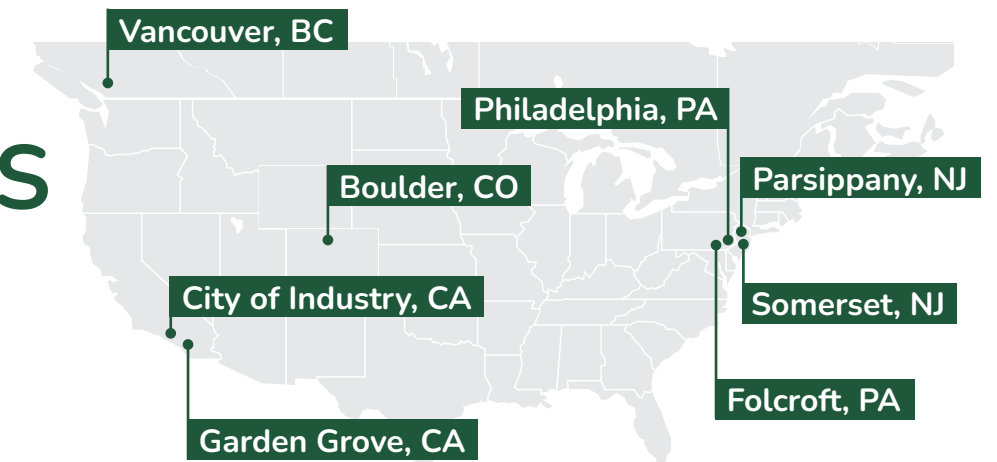

El Burrito delivers wonderful healthy Mexican food options to the world

Mr. and Ms. Roth founded El Burrito Mexican Food Products as a manufacturer of Mexican food products, such as salsa, in 1980. Chorizo was Mr. Roth's favorite food, but he developed a heart disease and could no longer eat chorizo, so he invented Soyrito cholesterol-free soy-based chorizo alternative. We use traditional Mexican spices to keep it authentic, and we make everything Hexane Free and Gluten Free. The spirit of our company is based on our commitment to your health and developing flavor, cultivated in our history for the last three decades.

OUR FACILITIES

With 8 production facilities, we ensure a stable supply across the United States and Canada.
